## Professional Summary

Innovative software developer with proven expertise in full-stack web development, cloud technologies, and scalable solution design. Demonstrated success in delivering high-performance web applications using modern frameworks and cloud platforms.

## Technical Skills

**Programming Languages:** Python, JavaScript, HTML, CSS, PHP, C, C++, Java

**Frameworks:** Django, Flask, React.js, Flutter

**Databases:** MySQL, SQLite

**Cloud Platforms:** AWS, Azure

**Tools:** Git, Bootstrap, Postman

**Specialized Skills:** REST API Development, Full-Stack Web Development, Cloud Operations, Flutter App Development

## Professional Experience

### Associate Software Engineer | Accenture, Bangalore, India

Aug 2022 – May 2023

- Provided critical cloud operations support using AWS and Azure, maintaining system performance and reliability
- Developed comprehensive project reports enhancing client communication and strategic decision-making
- Collaborated with cross-functional teams to optimize cloud infrastructure and deployment processes

### Junior Python Django Fullstack Intern | Inamakes Info Tech, Kochi, India

Aug 2022 – Nov 2022

- Engineered Django full-stack web applications with 99% uptime on live platforms
- Implemented robust web solutions using modern web technologies and best practices
- Gained hands-on experience in full-stack development methodologies

## Notable Projects

### Sportzone Turf Booking | Full-Stack Django Project

- Developed comprehensive turf booking platform with modular customer, turf owner, and admin functionalities
- Implemented advanced slot booking and management systems
- **Technologies:** Django, HTML, CSS, JavaScript, SQLite, Bootstrap, Ajax
- Live : [Sportzone](#) | GitHub : [Repository](#)

### E-commerce Application | Full-Stack Django Project

- Constructed scalable e-commerce platform with integrated cart functionality and admin panel
- Utilized Django REST framework for efficient backend operations
- **Technologies:** Django, MySQL, HTML, CSS, JavaScript, Bootstrap
- Live: [Ecom-website](#) | GitHub: [Repository](#)

### Canteen Booking System | Flutter & Flask Project

- Developed full-stack mobile application for college canteen management
- Implemented real-time order tracking and payment integration, Reduced order processing time by 40%
- **Technologies:** Flutter, Flask, MySQL, REST API, Razorpay gateway
- Live: [SmartQ](#) | GitHub: [Repository](#)

### Live Weather App | React.js API Project

- Created real-time weather application consuming OpenWeatherMap API
- Enabled tracking of current weather status for any location
- **Technologies:** React.js, Bootstrap, REST API
- Live: [Weather app](#) | GitHub: [Repository](#)

## Education

### Bachelor of Computer Applications | St. Berchmans College, Changanacherry

July 2023 | CCPA: 8.97 / 10

### Higher Secondary Education

- 12th Standard: 91%
- 10th Standard: 100%

## Soft Skills

- Proactive Problem-Solving
- Adaptive Team Collaboration
- Effective Communication
- Strategic Time Management
- Continuous Learning Mindset
